there are five people in this image...

there are four people in this image...

Query: How many people are in the picture and what are they doing?

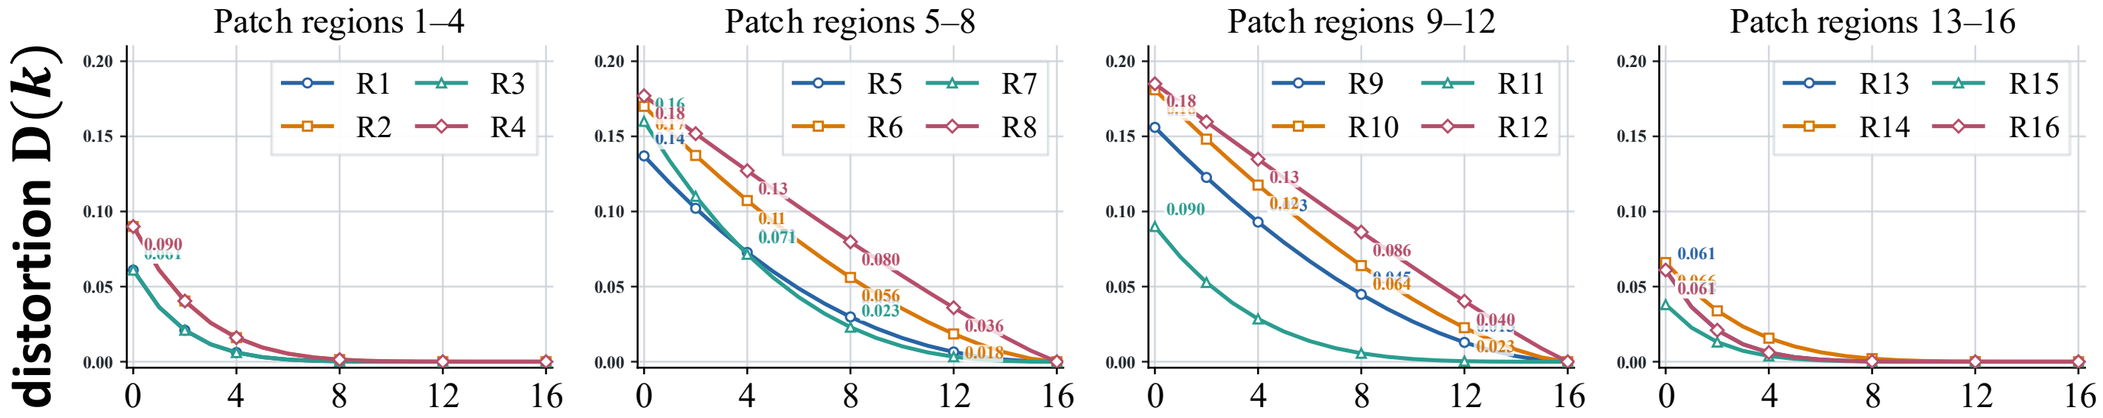

There are a total of 6 people visible in the image: the most prominent is a man in the foreground wearing a brown shirt and khaki shorts who is jumping up to catch a frisbee, while behind him in the shallow water and on the sand, there is a child in the water on the left, two people walking on the right, another person at the far right edge, and one more person swimming or surfing in the distant waves on the upper left.

☹ **Importance ranking** ☹ **Coverage selection** ☺ **Q-RADA (ours)**

(a) Comparison of different methods

(b) Regional rate–distortion profiles
